

COMSURE PRICING 2025

How to engage Comsure and associated costs follow below: -

1. HOURLY ['ON THE CLOCK' CHARGEABLE RATE]

- a. Comsure's standard 'on the clock' chargeable rate (outside any pre-agreed project or retainer cost) is £285.00 an hour.

2. PROJECT RETAINER

- a. Your instruction can be treated as a project, albeit at a discount of 10% [£256.50 an hour]
- b. A project is deemed a support time expected to have a short-term duration. For longer engagements, Comsure offer a 40-hour retainer [see below]
- c. In engaging Comsure on these terms, Comsure asks for £3,591.00 on account (project engagement retainer) for a minimum of 14 hours [2 days at 7 hours a day].
- d. After completing a project, it can be rolled over on the same terms or renegotiated to the retainer arrangement (see below).

3. 40-HOUR RETAINER

- a. Alternatively, your instruction can be managed through a retainer.
- b. Comsure can offer a 40-hour [equivalent to 5 days @ 8 hours a day] retainer, like the project, but at a significant discount [20%], namely £228.00 [$£228.00 \times 40 = £9,120.00$]
- c. In engaging, Comsure asks for 50% of the retainer fee [£4,560.00] on account (engagement retainer) after signing the Comsure agreement and, after 20 hours, the remaining £4,560.00.
- d. After 40 hours, you can roll over the terms at the same rate, revert to one of the above, or close the relationship with Comsure.
